

Slack Etiquette

Welcome to **Slack** and **RockzFX Academy**

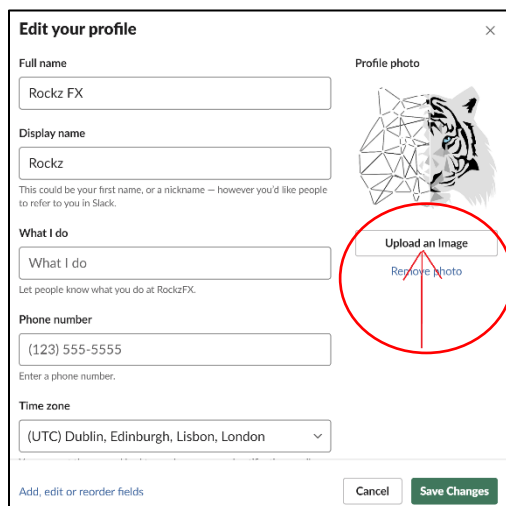

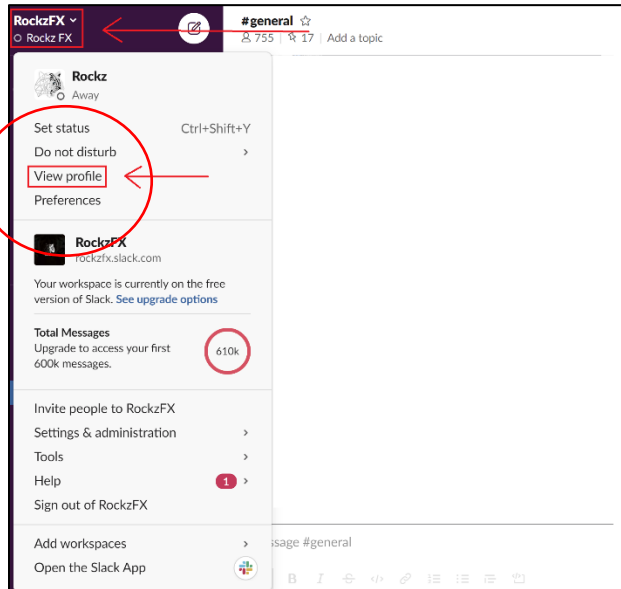

Happy to have you on board with us and really looking forward to supporting your journey.

To ensure that you receive the full benefits of the RockzFX Academy and the Slack community, I strongly urge you to take 5 minutes out of your time to read this.

The RockzFX Academy and Slack community has been offered to all our family so we can grow together and support each other. With the Academy growing every day we have listed a set of instructions so that things here stay simple and user friendly for all.

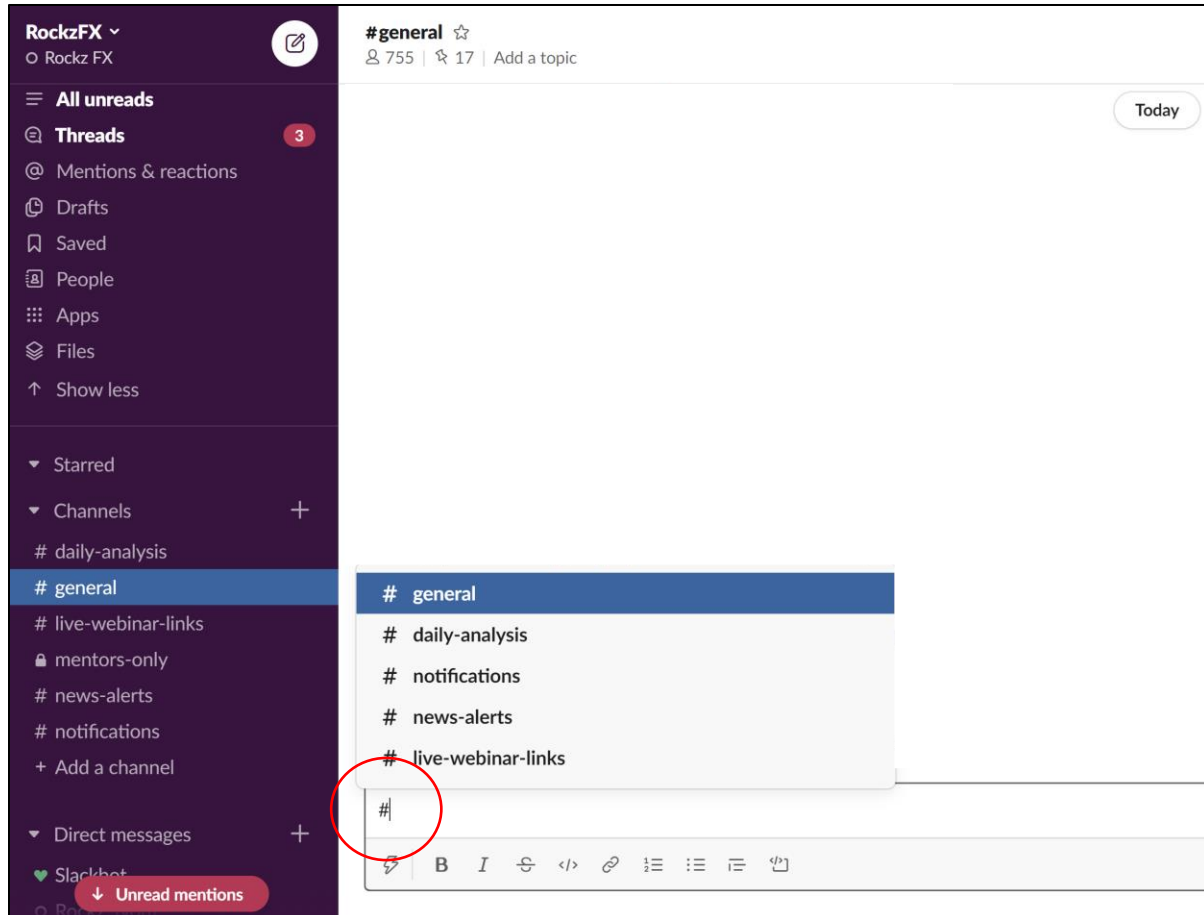

Please read below so as to familiarize yourself to what is required:

1. First things first, pop up a profile picture in your settings.

2. **Join all channels:**

Simply click # in any channel and the list will pop up. Click on the channel to join.

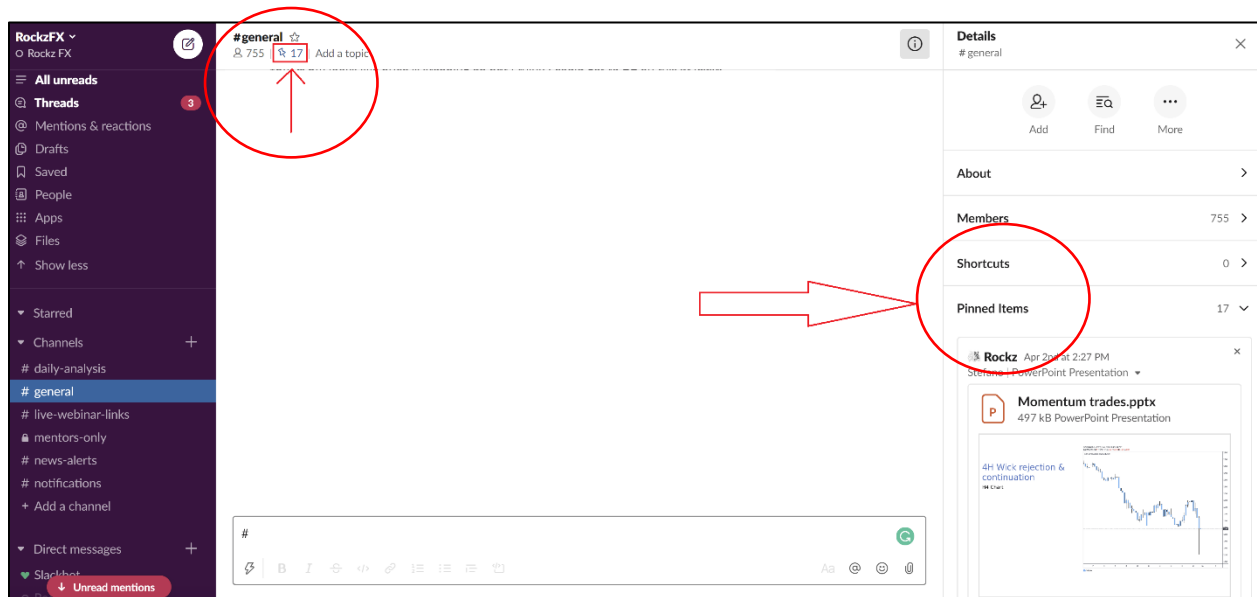

Daily analysis: This is not a signal channel. I will as often as I can provide analysis pre London open or just after giving you my viewpoint on a maximum of 10 pairs for that day. Analysis only lasts for 24 hours.

Notifications: Only myself (Rockz) Admin and Mentors should be using this channel. You will be notified of any updates or important notices.

News & Alerts: This is for whoever would like to share any important news events coming up to keep the members in the community in the loop.

Live Webinars: This is the channel I will be sending all the links for our live sessions.

3. Access saved documents and spreadsheets:

Here you will find many useful resources including the spreadsheets for logging your trades. There are a couple pinned to this feed so take your pick.

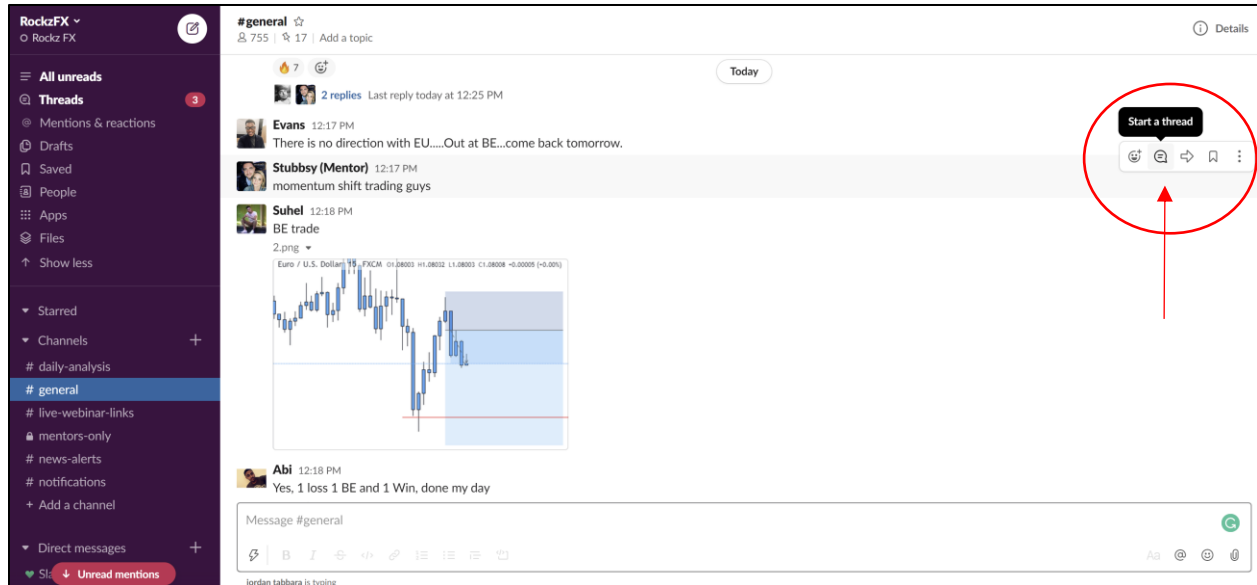

If you have something that you think would be beneficial to the members of the community and you want it to end up in the saved feed, then please drop me a message and I will take a look before we make it available to everyone.

PLEASE NOTE:

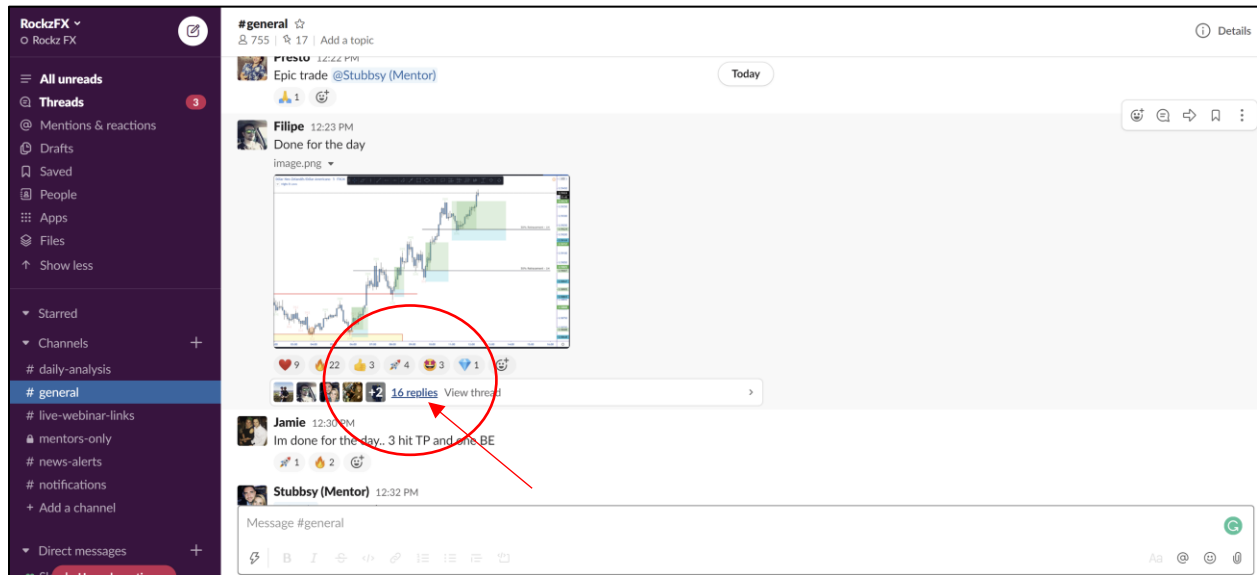

Anyone who unpins anything from this feed without letting me know will be removed from slack. It is very difficult to find these documents again after a few days of communication in the **#general** channel.

4. Starting and replying to threads:

Starting a thread:

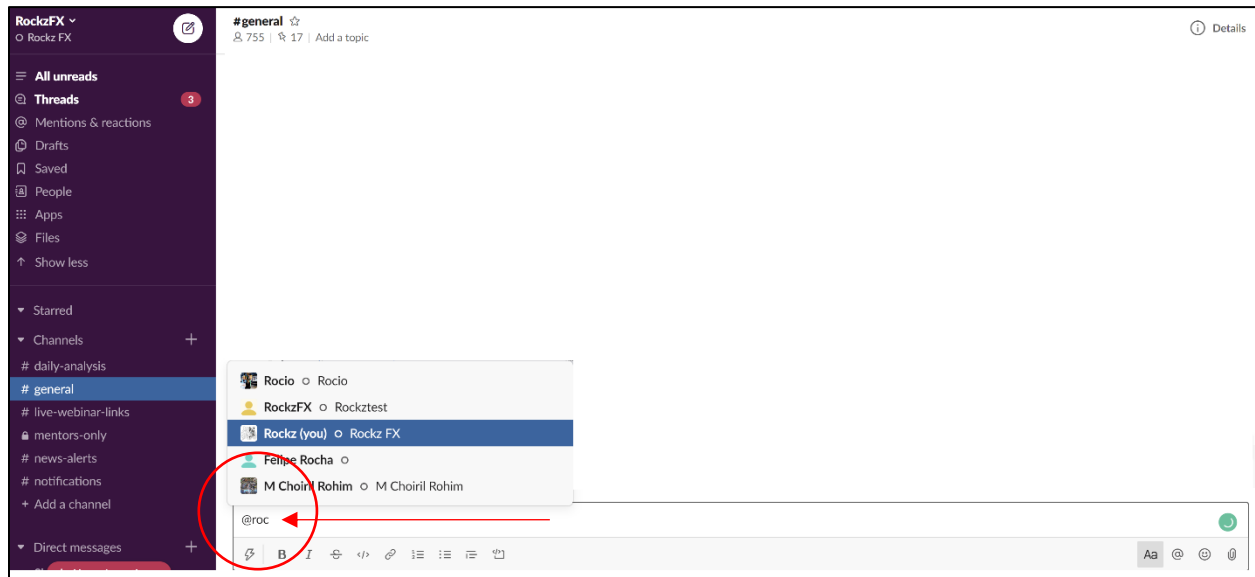

Replying to a thread:

This just helps to keep the channel tidy and allow for more organization and better for us when we need to refer back to a chat or event.

5. *Directing your messages to a specific member:*

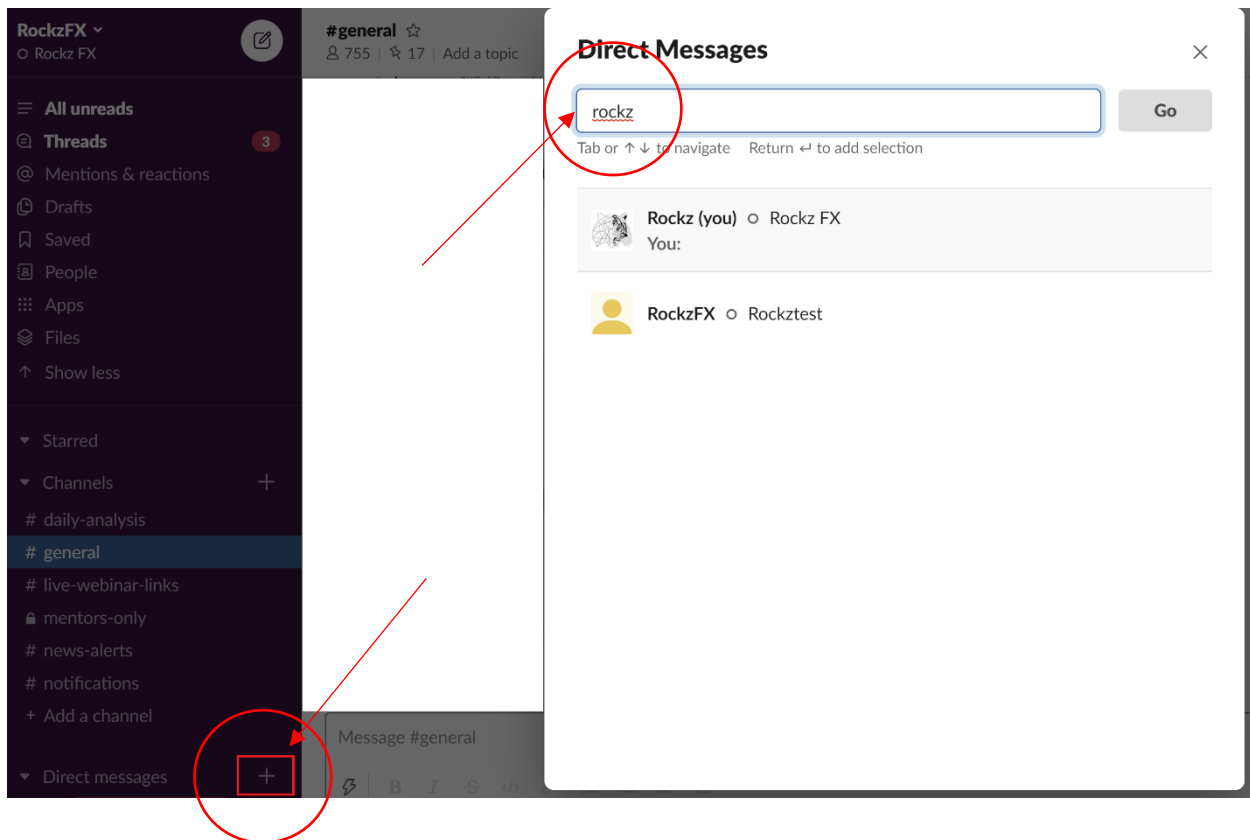

If you want to direct your messages to someone specifically, all you have to do is press **@** and then select the member you are looking for. You can also type an initial to find them easier.

Please do not abuse calling on members using **@** as some members may be busy or they are away from the chats. This will cause them to get a notification and may disturb them from their activities.

6. *Direct messages:*

This is used to chat to other members in the community in private. These messages will not be shared or seen by anyone else in the community. Not even myself!

Basic Etiquette:

- No spam. All automated messages, advertisements, and links to competitor websites will be deleted immediately.
- Respect other users. No flaming or abusing fellow RockzFX Academy members. Members who continue to post inflammatory, abusive comments will be deleted from slack after one warning issued by Rockz, Admin or Mentors.
- Harassment. No threats or harassment of other users will be tolerated. Any instance of threatening or harassing behaviour is grounds for deletion from the slack.
- Adult content. No profanity or pornography is allowed. Posts containing adult material will be deleted.
- Posts of how much money you made on your trade will be deleted. No one cares about your money. They prefer the process in which you took.
- Illegal content. No re-posting of copyrighted materials or other illegal content is allowed. Any posts containing illegal content or copyrighted materials will be deleted.
- Anyone found to be bickering will be asked to stop, you can take your arguments private. We are not children. If it continues in the main channel I will remove you immediately.
- No racist or sexist comments, jokes or references.
- Treat other members with the respect they deserve. This should go without saying, but treat others like you would like to be treated!
- The forum language is English only! Please only post in other languages in PM.
- Please do not post threads text in all CAPITALS since this is considered to be shouting and is not necessary.
- Please do not **@everyone**. The only members doing that should be myself (Rockz), Banu (admin) and Mentors.
- Please be considerate in language you use on the forum, some of our members are younger than others. Swearing is not completely banned, just do not swear unnecessarily, and only use minor words. A filter is in place to safeguard this system.
- No hacking, and illegal activity, such as installing apps, this will not be tolerated. I will get a notifications from slackbot and I will remove you from slack.

I think these rules are clear, and easy to follow. These are only in place to ensure our community is a place to be, and a comfortable atmosphere for all.

For admin queries and questions regarding access to content please message **@Banu (admin)**
ONLY! DO NOT message in the **#general** channel.

Questions relating to the course can be directed at myself **Rockz, Mentors** and the members in the **#general** channel.

If you are new, you are advised to watch the introduction video first and then study in the order recommended. I advise all new members complete the **5 day course** before asking tons of questions in the **#general** channel.

New members are encouraged to write a list of questions and then direct them at myself at once. So I can help to refine your understanding of things and then get you back on track with your studies.

Thank you all for reading.

Enjoy your journey here at the RockzFX Academy.

Rockz, Banu (admin) & Mentors.
